

#### Our Mission

The Clothing Library lends clothing *for free* to encourage all to borrow not buy and bring awareness to the ecological and social impact of their choices.

We focus on education, exploration and community engagement!

#### Our Vision

We envision a societal shift from overconsumption to 'enoughness' by changing buying behavior through the 'commoning' of clothing.

The Clothing Library plans to expand its presence in partnership with existing library networks.

#### Our Pilot

The Clothing Library is the brainchild of Stella McShera, a masters student in Degrowth. As a lover of fashion, but not the fashion industry, Stella is co-creating the Clothing Library as her thesis project by seeking out like-minded community members who share her passion.
