

Cukorka Szabóság

Casual, simple yet stylish, special scarves.

I am Anett Czukor-Szabó, wife, mother, woman. I have always considered myself a creative person.

It has been my dream to see my creative thoughts, which are always swirling around, take shape. Since childhood, I have loved the simple things with a twist, a unique idea. I wanted to create a product that is not defined by fashion, but by the wearer. Neither a scarf nor a headband, but hair scarves that are easy to put on with a special wire, non-slip, wearable in many different ways. Sustainability and supporting ethical businesses is important to me, so I strive for this in the production of my products. I work with European, GOTS and ÖKO-TEX certified materials, and I pay attention to environmentally friendly packaging.

Cukorka also organises workshops where participants can create their own hair scarves. Cukorka Workshop is a place where inspiration takes flight and different materials, colours and patterns are used to create unique and creative scarves without limits.

Paint, sew, embroider, splash, print, glue!

Make unique creations, wire scarves that no one else has. Relax and let the ideas flow freely!
