

# Association “Generations”

"Generations" is an association of experts working for many years in the field of adult education and training, with extensive experience in project management under the Leonardo da Vinci, Grundtvig, Phare, Social Fund programmes. The desire of the founders of the association is to follow the common European idea of Lifelong Learning. "Generations" shares the principles of tolerance and peaceful coexistence between different communities, the principles of civil society and equality, European policies and values, contributing to the building of a bridge between generations.

The main objectives of the Association are:

- To develop, consolidate, promote and transfer between generations national and spiritual values in the field of education, science, culture, technology, etc;
- To research, develop and implement the experiences, principles and policies of other countries in the field of integration of people aged 55+, reducing the generational divide and improving intergenerational dialogue;
- To actively work and support the process of managing differences through dialogue, partnership and consensus;

To achieve its objectives, the association carries out the following activities:

- Developing and implementing projects at national and international level, integrating into social networks the target groups to learn about the latest developments in practices and policies for bridging generational gaps.
- Development of training programmes in the field of diversity management;
- Organising training and internships for intergenerational representatives aimed at bridging the gap;
- Initiating and participating in symposia, congresses and conferences, seminars and workshops, round tables, contact exchanges, participation in working groups and other forums in pursuit of the main objectives of the Association;
- Development of strategies, programs, analyses, studies, forecasts and other events to build an effective intergenerational dialogue;
