

What is the Wear Your Origins Award Women Empowerment Movement?

Wear Your Origins is a sustainable brand focused on environmental, social, and cultural impact.

The movement empowers women victims of trafficking/violence and at risk of exploitation by integrating them into the fashion world. This initiative involves collaboration between new designers and survivor victims, creating capsule collections that reflect their origins, resilience, and strength. The collections are crafted using sustainable methods like zero-waste practices, sustainable textiles and circular economy techniques.
